## ASG hires Kyle Kayler, Vice Chairman of the Eastern Washington ASIS Chapter, as new Account Executive

**Seattle, Washington — 07/30/2009** — Aronson Security Group (ASG) announced today that Kyle Kayler has been hired as the new Eastern Washington Account Executive.

With over 15 years experience in designing and implementing enterprise security solutions, Kayler currently serves as the Vice Chairman of the Eastern Washington ASIS (American Society of Industrial Security) chapter. He previously worked for ASG as a Senior Applications Engineer with a master certification in Lenel.

He left ASG in 2007 to become the National Accounts Manager for a well known North American Security Systems Reseller, gaining a reputation for innovative and strategic program management.

His return to ASG was a natural step in his career path to one of the most important roles in the security industry: the primary advisor and strategic consultant for enterprise security clients.

“Kyle, with his ability to strategically align the business and technical needs of an organization in the role of a key account executive, will be a valuable asset to our clients,” said Phil Aronson, CEO of ASG.

“I am very passionate about contributing to the security industry in a way that brings positive change not only to the industry as a whole but to my clients in particular,” said Kayler. “I am proud that ASG shares these ideals and will allow me to focus on creating short and long term value for our clients.”

### About ASG

Aronson Security Group (ASG) is the premier independent integrator of enterprise security solutions. Building on a strong reputation for engineering and service for over 45 years, ASG provides engineering excellence, world-class service, and security expertise to premier regional and national organizations.
