ASG Welcomes New Service Team Managers, Anticipates Faster, Improved Customer Care

Seattle, Washington — September 8, 2009 — Aronson Security Group (ASG) is proud to welcome two new additions to their Service Team: Troy Garrett, Washington State Service Manager and Chris Johnston, Washington State Proactive Services Manager. Through reorganization of their Service Team and the addition of subject matter expert oriented Management, ASG anticipates a faster, improved Customer Care experience for its clients.

Troy Garrett, a 22-year veteran of the Security Industry, has been promoted from within ASG to the role of Washington State Service Manager. Garrett brings an in-depth knowledge of the design and deployment of various Security Solutions to the Service Team along with a dedication to Customer Service. Garrett begins this new stage of his career with the mandate to bring a premier level of Service to ASG's clients, and the empowerment to use any resources available to ensure that level of Service is attained and maintained.

Chris Johnston, a new addition to ASG, will be managing a relatively new arm of the Service Team, the Proactive Services Division. While ASG has been providing proactive maintenance and managed services for quite some time, only within the past year have these services been separated from traditional Service in order to take advantage of the experience of individuals like Johnston who are skilled at understanding and developing complex Software Support Agreements and Managed Service Contracts. Working closely with the Service Team, the Proactive Services Division is able to provide ASG's clients with a unique range of solutions designed to simplify the maintenance and operations of any security solution.

"ASG has always believed in the importance of Customer Service and providing a higher level of care to our clients," commented ASG President Phil Aronson, "I'm proud to have people like Troy Garrett and Chris Johnston on our team. I know they share my vision and will continue to add to the value our Service Team has to offer our clients."
