DIS Master Contract

The Washington State Department of Information Services (DIS) has awarded ASG with the Master Contract #T09-MST-024 for Information Technology Professional Services (ITPS). This contract allows ASG to provide **pre-negotiated rates** for professional IT services including **integrated systems consulting, design, engineering, programming, implementation and maintenance**. This contract is intended to allow qualified organizations the ability to purchase IT and related products and services directly from pre-qualified contractors.

About ASG

Aronson Security Group (ASG) is the premier independent integrator of enterprise security solutions. Building on a strong reputation for engineering and service for over 45 years, ASG provides engineering excellence, world-class service, and security expertise to premier regional and national organizations.

About the Washington State Department of Information Services (DIS)

The DIS provides **technology leadership** for government organizations across Washington. The DIS also offers contracts from which qualified customer organizations may purchase products and services directly from a number of **competitively selected contractors**. Each DIS master contract is researched, reviewed and negotiated by expert consultants and contracting professionals.

Overview: ITPS Contract #T09-MST-024

ITPS Contract #T09-MST-024 is an **optional-use** contract, established and administered by the DIS allowing state and local governmental entities and qualifying non-profit corporations to purchase professional IT and related services directly from a qualified contractor. These services include:

- **Business analysis**
- **External quality assurance**
- **Project management**
- **Technology architecture development**
- **Security analysis**
- **Enterprise content management**
- **Contingency and disaster recovery planning**
- **System analysis**
- **System programming**
- **System testing**
- **Hardware and software installation**
- **System or equipment maintenance and repair**

Who Can Utilize ITPS #T09-MST-024?

DIS Master Contracts may be used by any entity eligible to receive services from DIS, including state and local government entities and qualifying non-profits. Your organization must have an established business relationship with DIS through a Customer Service Agreement.

Advantages & Benefits of Using ITPS #T09-MST-024

- **Reduces the time, effort and cost associated with the acquisition process**
- **Complies with Office of Financial Management and Information Services Board competitive requirements**
- **Eliminates redundant internal work with a centralized approach**
- **Improves ability to respond to urgent needs**
- **Increases ability to focus on decision making vs. operational support**
- **Uses a streamlined uniform ordering process for all program activity**
- **Enhances the visibility of vendor performance and related information**

How Do I Use This Contract?

To be eligible to use this contract, your organization must have access to DIS services by completing a Customer Service Agreement. Purchasing through ITPS Master Contracts, such as this one, requires the use of a 12 step, 2nd tier bidding process. For more information on the bidding process, please contact ASG or visit the DIS ITPS Master Contract site at <http://techmall.dis.wa.gov/services/itps.aspx>.
